**Subject:** RE: Carter Off-Road Park Violations/Enforcement

Ms. Peckham,

The attached report for this case was composed by Inspector Erica McAdoo (501-683-0827 or [mcadoo@adeq.state.ar.us](mailto:mcadoo@adeq.state.ar.us)) and submitted to our Branch Manager Jason Bolenbaugh (501-682-0659 or [Bolenbaugh@adeq.state.ar.us](mailto:Bolenbaugh@adeq.state.ar.us)). As of yesterday, I believe, this case has been submitted to our Enforcement Branch for further management since the owner/operator proved to be unresponsive and uncooperative. A good point of contact for the Enforcement Branch is the Branch Manager Richard Healey (501-682-0640 or [healeyr@adeq.state.ar.us](mailto:healeyr@adeq.state.ar.us)).

I believe that Mr. Bolenbaugh is your best point of contact at this time for insight to the history of the site and the offender, the exact violations cited in the report, the current status of the case, and where we expect the case to go in the future. Again, Mr. Bolenbaugh can be reached at 501-682-0659 or [Bolenbaugh@adeq.state.ar.us](mailto:Bolenbaugh@adeq.state.ar.us).

Regards,

*Clark Baker*

**Subject:** Carter Off-Road Park Violations/Enforcement

Hello, I have been assigned to this case. First such park I have never seen. Please help me learn – what is the violation(s) being forwarded? Is it a spillway (which I have not yet found) or is it more? What happened between 2007 and the present? The whole story is needed. When was the recent spillway constructed. ?There is a 5 year statute of limitations regarding penalties. We have the option to require removal of fill and then restoration, or

Apply for and obtain ATF permit within certain number of days; along with the penalty if within the time limit. Was there a detailed inspection report, a report was mentioned in an email.
